About Tapestry weaving workshop:

Tapestry is a unique work of art that is made in a particular woven textile technique. It develops hand-eye co-ordination and increases concentration, with complete absorption in the activity.

The activity of tapestry weaving acts as a form of therapy and gives a visually beautiful result at the end.

Workshop will include a practical session, as well as theory through presentations and video.

About the facilitators:

Akshata Mokashi and Tanvi Parab, having graduated from Sir J.J. School of Art, are currently working as textile designers and young art practitioners. They were introduced to the art of tapestry 4 years ago.

They are keen to introduce this distinct; yet not very renowned artform to all.
